How to install the WUR Item Layout mashup

1. Download the building block and the theme:
   a. Go to https://git.wageningenur.nl/itis-blackboard/wur-item-layout
   b. Click on Files in the menu
   c. Open the war-files folder
   d. Download the latest mashup war file
   e. Download the latest theme zip file
2. Log in to Blackboard as administrator
3. Install the theme:
   a. Go to the system admin panel
   b. Go to '*Brands and Themes*'
   c. Go to '*Theme and Pallette catalog*'
   d. Create a new theme (*Create Theme*) with the name 'wurmenulayout' (small caps!). By creating a theme we made the icons public available on the Blackboard server without special settings. We only need the theme, no need to create a Brand.
4. Install the building block:
   a. Go to the system admin panel
   b. Ga to '*Building Blocks*'.
   c. Go to '*Installed Tools*'
   d. Go to '*Upload Building Blocks*'.
   e. Upload the war file you downloaded in step 1.
5. Make the mashup available in courses:
   a. Go to the system admin panel
   b. Go to '*Tools and Utilities*'
   c. Go to '*Tools*'.
   d. Find '*Mashup – WUR Item Layout*'
   e. Configure the availability as required.

Don't forget to enable the tool in your courses….
